

WONDERS OF THE POWER OF MAGNETISM.

Startling Revelation of Occult Science.

As the Magnet Attracts the Steel So Do the Human Magnets Draw the Multitude.

Thunders of Applause Greeted Their Marvellous Demonstration at Boyd's Theater Last Night—Many Well Known Citizens of This City Were Instantly Cured of Their Afflictions on the Public Stage.

One of the largest audiences ever assembled at Boyd's New theater was gathered there last night and Friday night to witness the opening and closing demonstrations of the two magnetic healers in Omaha.

Some came to be cured of various diseases, and others to witness their marvellous power of healing the sick and to see a most remarkable exhibition.

It seemed that their wonderful fame had surely preceded them, as long before the time of opening a great number of all classes of people, those in perfect health, as well as the sick, crippled and rheumatic,

were clamoring for admission, having come from all parts of the city and states, the merchant, the millionaire and the artisan, on foot and in carriages—all were seen hurrying toward the great Mecca of health.

When the doors were thrown open in less than fifteen minutes the orchestra seats were all occupied by a crowd of cripples and people afflicted with various diseases, the like of which was never assembled in the house before.

The wisest, best educated and most enlightened people are daily becoming converts to these new principles and methods, which are supported by such overwhelming evidences sustained by public and private demonstrations of the most remarkable character; proofs which no reasoning mind can dispute; realities which echo and re-echo in the human mind as they witness the grand and most sublime panorama of living truths ever presented in the history of man.

Surely the human magnets have captured the hearts of the Omaha people, and the private treatments at their private office in the Paxton hotel will no doubt occupy all their time during their short stay in this city.

They not only cure the blind, lame and crippled, but all diseases yield to their strange power, as they witness the cure of chronic bronchitis, chronic diarrhoea, neuralgia, nervous prostration, diabetes, Bright's disease, epilepsy or fits, tumors in the female system, a do animal nature, diseased bone, hip disease, hemorrhoids, cancer, sciatia, paralysis, distula, liver complaint, kidney troubles, scrofula, gravel, rheumatism, impotency, and, in fact, all chronic diseases quickly yield to animal magnetism in the hands of these human magnets.

All those who are able and willing to pay for private treatment, or to attend their private parlor at the Paxton hotel, where examination, consultation and advice will be given entirely free.

Examinations are made without question and every ache and pain described far better than the patients can themselves, and that, too, without looking at the tongue or feeling the pulse, or having any previous knowledge of the case.

CITY COUNCIL PROCEEDINGS

Howell's Communication Urging Further Retrenchment Referred.

SEVERAL SECONDARY HEADS AIMED AT

Declared that by the Plan Proposed Ten Thousand Dollars May Be Saved—Old Bills of the Barber Company to Be Further Investigated.

At the special meeting of the city council last evening Councilman Howell sprung a surprise in the form of a communication suggesting sweeping retrenchments in the clerical force at the city hall, and a reduction in salaries of all municipal employees who receive over \$50 per month.

To the Honorable Mayor and Fellow Members of the City Council of Omaha: I have the honor to acknowledge the receipt of your letter of the 29th inst. and in reply to inform you that I have given the matter my careful consideration.

The discharge of one man in the city clerk's office at a salary of not less than \$100 per month, and the discharge of two men in the treasurer's office, drawing salaries of not less than \$75 per month.

The discharge of one clerk in the office of the Board of Public Works at a salary of \$90 per month, and the discharge of one man in the mayor's private secretary's office at a salary of \$100 per month.

The discharge of 20 per cent in all salaries paid city employees except those who now receive salaries of \$50 per month or less, and the discharge of one man in the city clerk's office at a salary of not less than \$100 per month.

These gentlemen, in a formal communication to the council, have suggested that the salaries of the city clerk, treasurer, and other officials be reduced to the same level as the salaries of the clerical force.

Mr. Howell's suggestion was referred to the committee on finance, which has reported in favor of the plan, and the council has agreed to refer the matter to a special committee for further investigation.

The special committee, to which was referred the city clerk's communication, has reported that the plan is feasible and would result in a saving of ten thousand dollars annually.

TRYING TO RAISE THEIR OWN MEAT

French Economists of the Opinion It Can All Be Produced at Home.

WASHINGTON, June 1.—United States Consul Chancellor at Havre has submitted to the State department an exhaustive report upon food preparation and distribution.

That an abundant supply of home grown meat and foods can be obtained at low prices, and that they are capable of being prepared for consumption so as to yield much better results than have been hitherto obtained.

It is said that statistics show that all the food required by 4,000,000 people, France can be produced in the country, and thus put in the pockets of the French peasants many millions of francs hitherto sent abroad.

The consul says this doubtless involves the use of horse flesh and certain refuse matter of slaughter houses, such as bones and offal, which have before been thrown away.

WE EASILY KEEP AHEAD

of all others in the matter of tailoring clothes to order.

The low tariff on woollens enables us to show you now for \$15 suits from goods that would have cost you last year \$20, and a corresponding reduction may be seen in all of our thousands of fine fabrics, ranging from \$15 to \$50 for suits and \$4 to \$14 for trousers.

Skilled labor is less costly to-day than for fifty years past, and we back up our artists work with our money, guaranteeing every garment to be satisfactory or money refunded.

KIRK.

EXCELLENT ADVICE

To Those That Wish to Practice Economy;

To Those That Wish to Save Their Colored or Printed Goods From Running or Fading.

RAIN WATER MAKER

Will Do all This and More.

It is evident the grand merits of this wonderful preparation is thoroughly understood by all, both young and old, and is evidenced by the fact that the sale of this great article is on the increase.

Rain Water Maker is not a hard water softener only, it was invented for other purposes as well. It will positively prevent flannels and woollens from shrinking or becoming hard. It will also hold colors in printed goods from running or fading, and the use of itself is a sound recommendation.

Rain Water Maker is not a soap powder and is not composed of any deleterious greases and lyes, such as the majority of soap powders are. This wonderful preparation saves both soap and labor, and therefore is a money saver. Rain Water Maker can be used for all purposes and is entirely harmless.

Prevents Colors From Running in Delicate Fabrics.

Mrs. John M. Fish, residing at No. 131 North Thirty-first avenue, said: "I have tested Kirk's Rain Water Maker and think it is excellent. It makes the flannels as soft as velvet and breaks the water so nicely. It prevents the colors from running in delicate colored fabrics, and, in fact, does just what is claimed for it."

Hotels Use It.

Mrs. Hilditch, wife of Frank Hilditch, manager of the Barker Hotel, said: "Judging from the tests that Kirk's Rain Water Maker has been given under my direction, I should say that it is a most wonderful preparation and I find it does all that is claimed for it. It breaks the water very nicely and it is a great help in the laundry department. It is just what is needed by the people who are compelled to use hard water. I am sure pleased to recommend it for general use."
